

Extract Technology at Interphex 2005

This was the tenth Interphex show for the members of the CPS Pharma group, which included Extract Technology. To celebrate this important milestone and provide a platform for the launch of the prestigious Pharma Group, visitors saw a major investment in the booth layout.

Extract Technology has a major presence in the containment market within the US, with customers recognizing the company's commitment to manufacturing quality products, a number of which were exhibited.

April 26-28, 2005
Jacob K. Javits
Convention Center
New York

On show was one of the fast-track/low-cost Flexible Isolators from Extract Technology, together with an extended Downflow Containment Booth and airlock showing our ability to manufacture sampling or dispensary facilities.

The systems on display demonstrated to visitors all aspects of our technology from High Containment Isolators to high throughput Downflow Booth technology.

Extract Technology of Huddersfield, UK, manufactures Downflow Booths, Isolators and Pack-Off Systems for the pharmaceutical industry. Extract Technology is part of the US-based private investment firm, Insight Equity, which acquired the Walker Group (parent group of CPS, former owners of Extract) on 6th October 2006.
